PROFESSIONAL SUMMARY

IT undergraduate and Higher National Diploma holder in Software Engineering with hands-on experience in software development, technical support, documentation, and day-to-day computer-based operations. Experienced in working with Java, Python, relational databases, Microsoft Windows, and various software tools, with strong problem-solving and troubleshooting abilities. Comfortable handling administrative tasks, maintaining records, preparing documents, coordinating with team members, and providing user support. Looking to apply my technical knowledge, organizational skills, attention to detail, and communication abilities in an **Office Administrator / Office Executive / Administrative Executive** role.

EXPERTISE

Logo Design · Social Media Marketing · Web Development · Microsoft Office Tools · Video Editing

PROFESSIONAL EXPERIENCE

Trainee Sales Executive Aug 2025 – Jan 2026
Smart Travels, Colombo 4, Sri Lanka

Software Engineer Intern Jan 2024 – Sep 2024
Ministry of Health, Sri Lanka

- Developed and maintained the Vehicle Management Information System (Java EE, JSF), enabling ministry staff to track and schedule vehicle usage across departments.
- Built core modules following MVC architecture and coding best practices, improving code readability and reducing recurring defects flagged during testing.
- Collaborated with a cross-functional team of developers and Ministry of Health staff to gather requirements and deliver functional system updates on schedule.

EDUCATION

- Higher National Diploma in Software Engineering — National Institute of Business Management | 2023 – 2024
- Diploma in Computer System Design — National Institute of Business Management | 2022 – 2023
- St. Aloysius College, Galle | 2006 – 2019
